**RE: Magnets and Stickers**

Dear Terri and Dan:

I wanted to take a minute and tell you how great the magnet and sticker job you did for us turned out. Our management team along with customers are extremely happy to have such a nice quality product. The magnets are being used to communicate our Printhead recovery procedures to the customer.

We've always been more than satisfied with your quality of work. Your company is extremely professional and great to work with. You do a great job communicating with the customer and helping them to get the best product possible.

I will continue doing business with you for a very long time.

Thanks again for a super job.
