I was searching the web looking for a reliable and efficient business to purchase photo magnets for my learning center. From the initial contact with 1-888-MAGNETS.com and Terri Singer, I was completely pleased. She spent significant time with me on the phone discussing my options, and then used the internet to send me proofs of everything designed. 1-888-MAGNETS.com was quick and easy to use. I was able to evaluate their templates they sent over the internet and they made suggested changes immediately. The magnets came on time and the children loved them. Thanks 1-888-MAGNETS.com!
